5 reasons to choose NRS

Safe

Safety is the main function of traffic control. NRS places the highest value on the safety of our clients, traffic controllers, motorists and pedestrians. Our traffic control crews create a safe work site via our utilisation of Safe Work Method Statements and Toolbox Talk safety meetings. Both are held prior to the commencement of every shift. All NRS staff hold various accreditations with WorkCover and the RTA to Blue, Yellow, Red & Orange levels.

Experienced

Our traffic control crews have extensive experience in providing traffic control services for various industries including; building construction, utility maintenance, line marking and road maintenance. NRS has been providing traffic control services for over 12 years, making NRS one of Australia's longest running traffic management companies.

Reliable

Reliability is a key factor in choosing a traffic control company. NRS prides itself on ensuring our crews arrive onsite on time, so that your work is never delayed. All vehicles have GPS tracking to provide us, and our clients, with an accurate location of the crew at all times.

24 Hours

NRS supplies traffic control crews **24 hours - 7 days** throughout the greater Sydney metro area and across NSW. NRS has staff available to answer your call when you need it most. We service planned and emergency works with dedicated traffic control vehicles set up with roadwork and pedestrian signage to suit all types of work.

Simplified Rates

Costing your works should be quick and accurate. NRS has a schedule of rates that makes your quoting and tendering easy. Either weekday, weeknight or any other time, our 3 rate system keeps it simple to use and fast to quote. If your project requires a more specific costing our team is ready to offer you a free, comprehensive quotation delivered in a time frame to suit you.
